

POINT-OF-CARE MEDICATION DISPENSING MADE EASY

Discover a fully comprehensive solution that provides visibility into your patients' benefits, allowing you to dispense pre-packaged medications directly to them at the point of care.

Our program provides you with a best-in-class in-office dispensing experience.

- **Credentialing.** Our experienced team guides your practice through onboarding, ensuring all required documents are collected and state requirements are met. We handle licensing and contracting with 40+ Pharmacy Benefit Managers while providing regular updates throughout the process.
- **Training.** We provide complete training and Dedicated Account Managers on our easy-to-use web-based software, including patient eligibility checks, insurance adjudication, inventory tracking, and dispensing.
- **Formulary Management.** We help review and manage your formulary, while our dashboard alerts your team to low inventory/ expiring medications, and provides updates on new medication opportunities relevant to your specialty.
- **Revenue Cycle Management & Reconciliation.** Dispense data is automatically submitted to insurance carriers for reimbursement. Practices receive monthly invoices detailing dispenses, and our team assists with reconciling costs and reimbursements.
- **Web-Based Software.** Our web-based dispensing system allows practices to manage, order, track, and dispense medications from any computer, with easy label printing and compliance documentation.
